Developers

ORASCOM DEVELOPMENT

Orascom Hotels and Development (**OHD**) is an integrated developer of resort towns in Egypt. It involves a vertically-integrated business model with various development fields including residential units, hotels and recreational facilities such as golf courses, town centers and marinas leisure; also supporting infrastructure, such as hospitals and schools.

TATWEER MISR

Established in 2014, **Tatweer Misr** is an Egyptian shareholding real estate company that provide the business and technical expertise needed to fulfill the vision of mixed use residential developments based on elegant and luxurious modern architecture and landscaping.

THE WATERWAY RESIDENTIAL & COMMERCIAL

The Waterway is the most significant new real estate development on the horizon in New Cairo. It is a thoughtfully designed mixed-use development within close proximity of all necessary services and amenities.

SOMABAY PROPERTIES

Somabay is the ultimate resort village on the Red Sea Coast. The embodiment of peace, luxury, and beauty; it hosts five luxury hotels, spa and sports outlets, residential developments and a stylish marina. Somabay is decidedly designed for different tastes, affording an ideal and unique holiday for all.

HYDE PARK DEVELOPMENTS

Hyde Park Properties for Development (HPDI S.A.E. was established in 2011 with a mission to become Egypt's most valued developer by revolutionising the real estate market and establishing an environmentally and socially-conscious culture. Working in full force, Hyde Park's dedicated vision and exhaustive strategies have paid off, as the company continues to affirm its positioning and flaunt its success stories.

TAMEER

Taamer Developments is one of the leading Real Estate Developers in Egypt, their portfolio comprises such architectural masterpieces as the Oberoi hotel in Aswan, the Old Meridian hotel in Cairo and New Maadi neighbourhood.

SODIC

Homes Developments

SODIC is one of the country's leading real estate development companies. Headquartered in Cairo and listed on the Egyptian stock exchange, SODIC brings to the market award-winning large scale developments, meeting Egypt's ever growing need for high quality housing, commercial and retail spaces.

BONYAN

DEVELOPMENT AND TRADE

Bonyan for Development and Trade was established in July 2007 to carry out specialized real estate projects in Egypt initially, and the MENA region to follow. Based on a start-up capital of EGP 250 million, Bonyan is backed by the support of prestigious investors of which is the global player Citadel Capital.

Developers

Delicious Inc. established in 1999, founded the Cilantro café brand in 2000, the first store opening in Cairo, Egypt. Since its opening Cilantro set out to effect a dramatic change in coffee shop concept in Egypt. Delicious Inc. emerged some of food and beverages chains like Ruyhana Food Factory, and Delicious Bakery " TBS " along with Cilantro café.

(MOFA) Since its establishmmnt on December 2nd, 1971, the United Arab Emirates has embraced the principles of peaceful coexistence, mutual respect and non-interference in other countries' internal affairs as cornerstones of the country's foreign policy.

Americana Group is a Kuwaiti food company headquartered in Kuwait City. It operates food products throughout the Middle East and North Africa region. Americana Group is the largest integrated food company in Middle East.

IGI Real Estate seeks to develop world class Egyptian properties, homes and communities which significantly meet the needs of clients.
This goal is reflected the rigorous work practices, uncompromising standards and passion for creating quality residential environments.

(MNHD) is a leading real estate development company in Egypt, founded in 1959 as a public company before being offered on the Egyptian Exchange through an IPO in 1995.
Since its inception, MNHD has been developing mega projects to serve the needs of thousands of middle-income Egyptians along with the installation of infrastructure and utilities.

Dreamland a member of Bahgat Group, is acknowledged as one of the largest, privately-owned, integrated urban development projects in Egypt & in the entire Middle East. With its genius location and its fascinating atmosphere, it offers something unique for those who seek excellence.

AL-AHLY was founded in 1984.
The company partners are The National Bank of Egypt, the largest bank in the Middle East. The Chairman is Eng. Hussein Sabbour, who is known for establishing one of the first engineering consultancy firms in Egypt and turning it into a prominent real estate business.

FIRST RESIDENCE a real estate company that first launched Mangroovy a new residential project located in El Gouna, a generous mosaic of design and quality, pulsing with positive energy. Mangroovy appreciate the kind of life El Gouna is offering, a life with less clutter, less stress and more satisfaction.

WESTOWN MOCKUP *townhouse*

IN COLLABORATION WITH
SOME OF EGYPT'S FINEST SUPPLIERS & MONA HUSSEIN DESIGN HOUSE -MHDH-
CELEBRATING 27 YEARS OF DESIGN.

Teamed up with creating amazing projects from residential, commercial, offices to medical and hospitality. We are creating this mock-up setting design trends for 2020 and introducing the latest materials, technologies and smart solution.

A Design concept is one of the most challenging ideas that could encounter the mind. This concept of turning a house into a lifetime home involves so many ideas that we implemented in the design to achieve such a concept. In this "lifetime" home we managed to attain comfort, privacy, exquisite designs, entertainment, a successful work environment, an educational environment, and a nature integrated atmosphere along with many other design concepts which adapt to the human lifecycle targeting our needs and wants along the way.

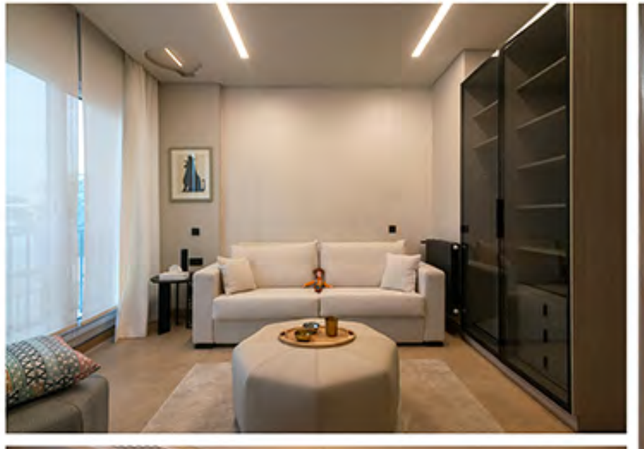

We started our story with a serene entrance, using homogeneous materials like ribbed wood cladding, white wood vein marble flooring and trimless light fixtures.

Bathroom considers privacy yet freedom of usage for the couple.

The two separate secondary bedrooms and shared bathroom were turned into a second suite with a functional divider that allows them to be two bedrooms or a second suite depending on the life cycle of the family.

The landscape houses a Garage for one car with the latest Schneider smart car charging technology.

It is designed to have different types of plants and water features in the entrance with a small seating area or chilling zone for anyone who'd like to enjoy the greenery.

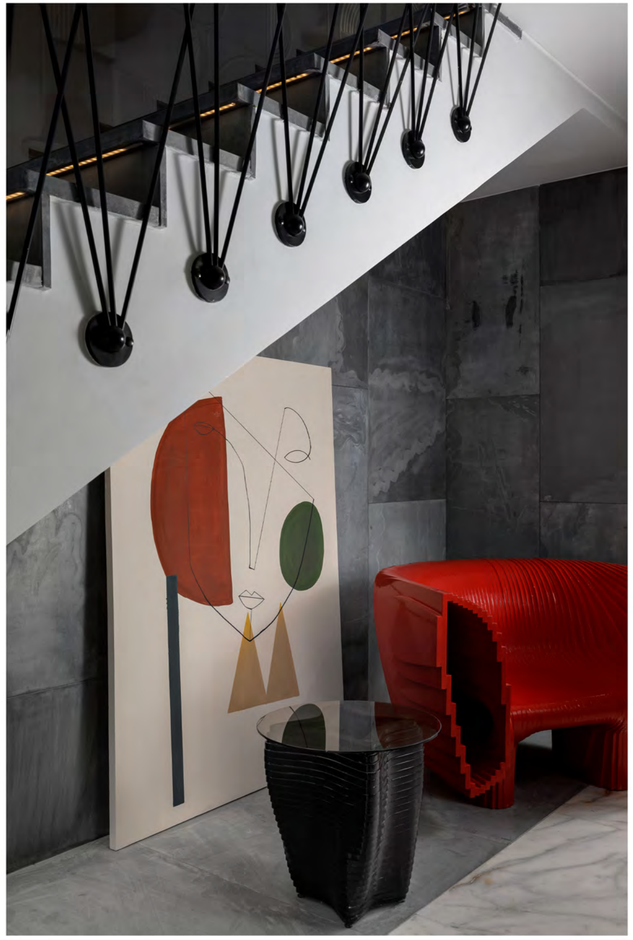

Badyã

THE CREATIVE CITY

Many have wondered why Badya is a creative city. It is so because it is developed in a way where everything is unique from its designs to its structures & landscape. The city as a whole is innovative & challenges the norm in every undertaking. Badya is a cultural hub for a modern and progressive Egypt, it's the place that gives you a platform to prosper, exchange great ideas & engage with different cultures.

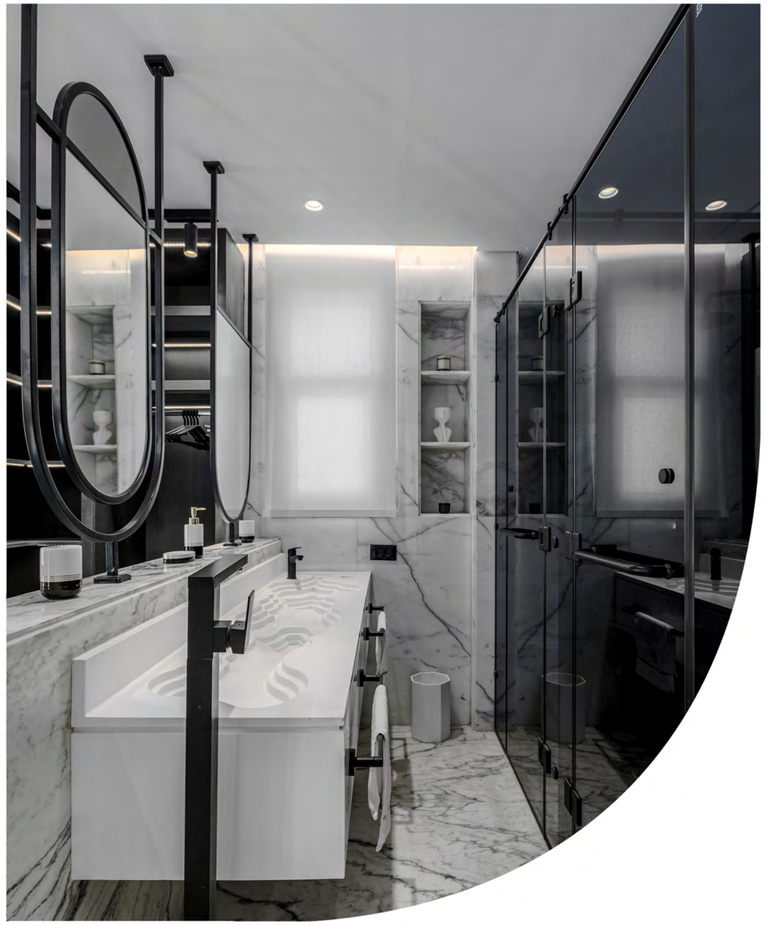

SMART, **ARTISTIC** and **LUXURIOS** home with a wonder colorful mood and minimlistic landscape design.

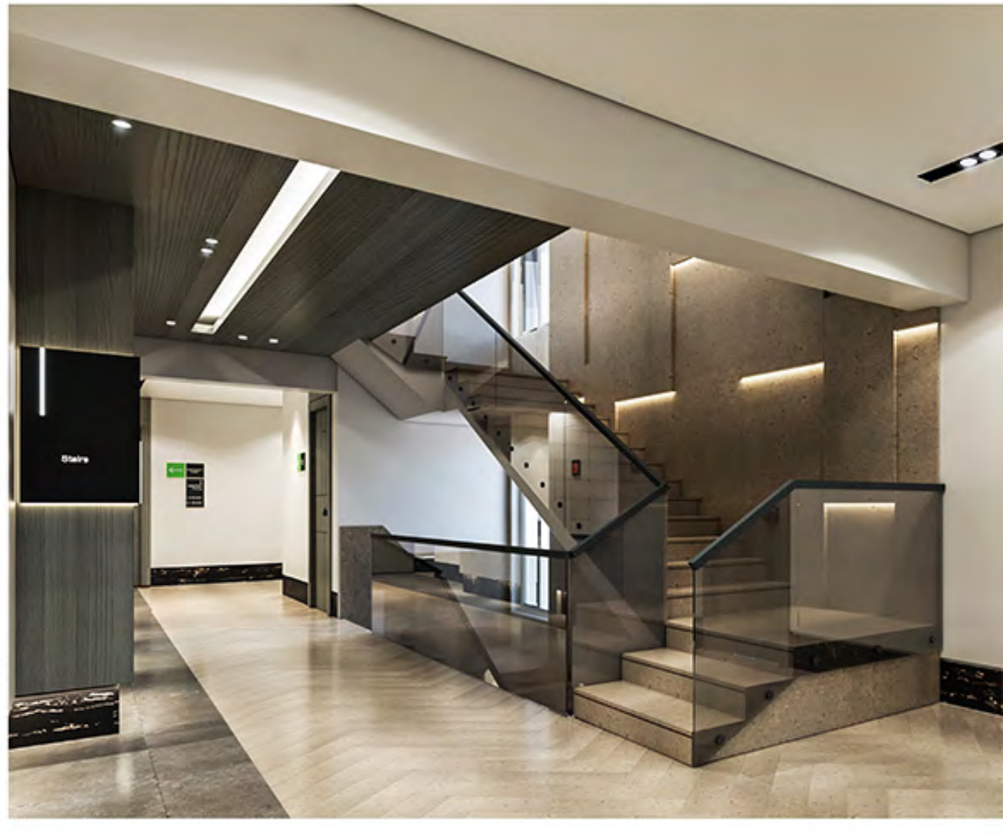

PALM HILLS
NEW CAIRO

Palm Hills New Cairo is a new mixed-use community providing balance and diversity of housing types, natural backdrops, commercial services and recreational amenities for its residents and nearby visitors. It is influenced by the local area and is centered on creating a community of pedestrian-scaled, tree shrouded neighborhoods, and each focused on a central park and social areas featuring services such as the community center. These lush green neighborhoods are sustainably balanced by the unique natural landscape features of the site. Street landscaping, entries, walls and fences, signage and other elements will be designed as an integrated system for each neighborhood. Each neighborhood will have its own exclusive community center, which will be the focal point for all communal activities.

THE CROWN

PALM HILLS OCTOBER
EXTENSION

Distinctive economical design, saves the budget and dazzles the onlookers. Painting with diverse effects and finishes gave a feeling of difference and luxury at the same time. Earthy colors also helped a lot in reaching this pleasing design.

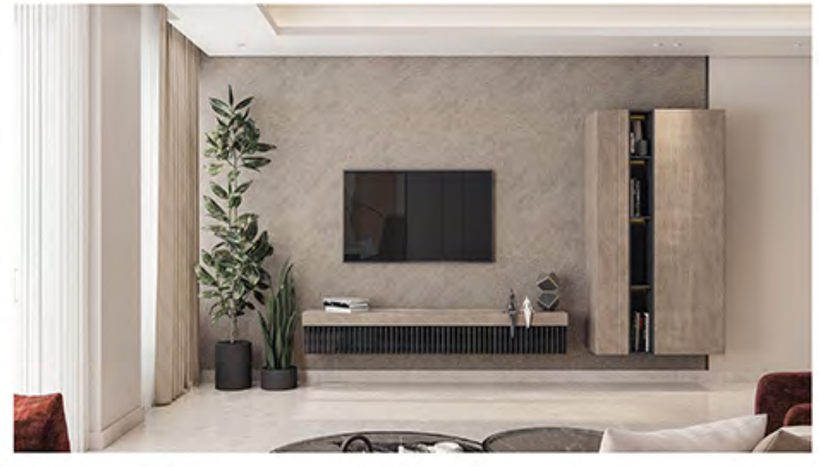

TAMEER

AZAD COMPOUND

TAMEER is a strong believer in creating functional and communal home living, that is why AZAD was designed to offer its residents a comprehensive home, that extends beyond the walls of one's apartment. Life in AZAD was envisioned first and around it, the design was created. The residential buildings are on the peripheries of the compound, forming an almost perfect rectangle, overlooking the park and the facilities. This business lounge is meant to be the backbone of AZAD, attracting everybody to enjoy activities together and forge a neighborly bond.

TATWEER MISR

Established in 2014, Tatweer Misr is an Egyptian shareholding real estate company, that capitalize on a wealth of industrial and real estate experience brough to the table by its shareholders.

A strong bond has been formed between Tatweer and MHDH, collaborating on more than just interior work, such as large scale land art symposiums.

IL MONTE GALALA

residential type

Il Monte Galala / Beach Retreat

For this project we created two house prototypes: Mountain Retreat and Beach Retreat.

The one you see here is the Beach Retreat.

The design goal was to emanate a sense of rawness, which is evident in this picture. We achieved this by using highly textured materials (wood and concrete).

We created an element of much needed contrast, to compliment the roughness of the materials and earthy tones, by using white in some minimal sleek and modern furniture. The result is harmonious and well balanced.

residential type

2016

Il Monte Galala / Beach Retreat

iconic unit in the design

EARTHY SHIMMER

residential type

2018

Il Monte Galala / Earthy Shimmer Mood

IL Monte Galala articulates a unique living experience not offered elsewhere.

Inspired by Portofino's spell-binding surroundings in Italy, this year - round mountain community with its lush land-scapes and idyllic beach life-style sets a global benchmark for luxury living, sustainability and unrivalled hospitality.

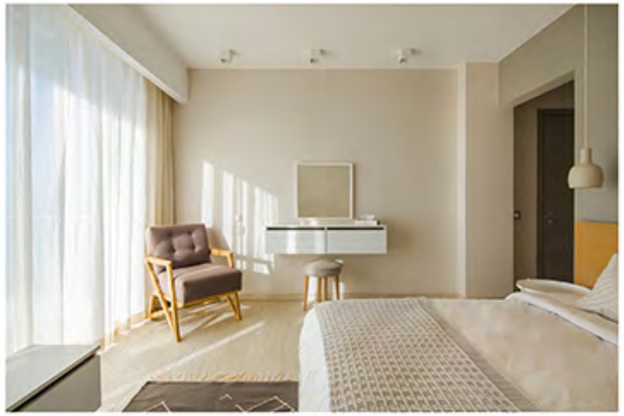

residential type

2018

Il Monte Galala / Cafe Abu Sait Mall

Flowing into a landscape of natural wealthiness

A brilliant combination of earth, water & air

FOUKA BAY
RAINBOW
MOOD

The main color scheme of the space consists of white and grey, and includes the light tone of natural wood. Pops of color are added through the furniture and accessories.

The mild interior, and minimal furniture lends way to the vibrant colors and patterns to add life and a breath of freshness to the place without being overwhelling.

The house is designed to be practical, casual and cost-effective, as well as, bright and light-hearted, fitting for a beach home.

RECEPTION —— DRESSING —— BATHROOM —— BEDROOM

iconic unit in the design

SEA WATER
MOOD

Mangroovy
RESIDENCE
EL GOUNA

Interest is added to the large, otherwise bare floor space by using a wide spread carpet with a beautiful geometric pattern. Similarly, the plain double height wall space is brought to life by a big well selected art painting.
Slightly retro furniture and colours enhance the character of the room.

AVANT GARDE

Livingroom / Avant Garde mood

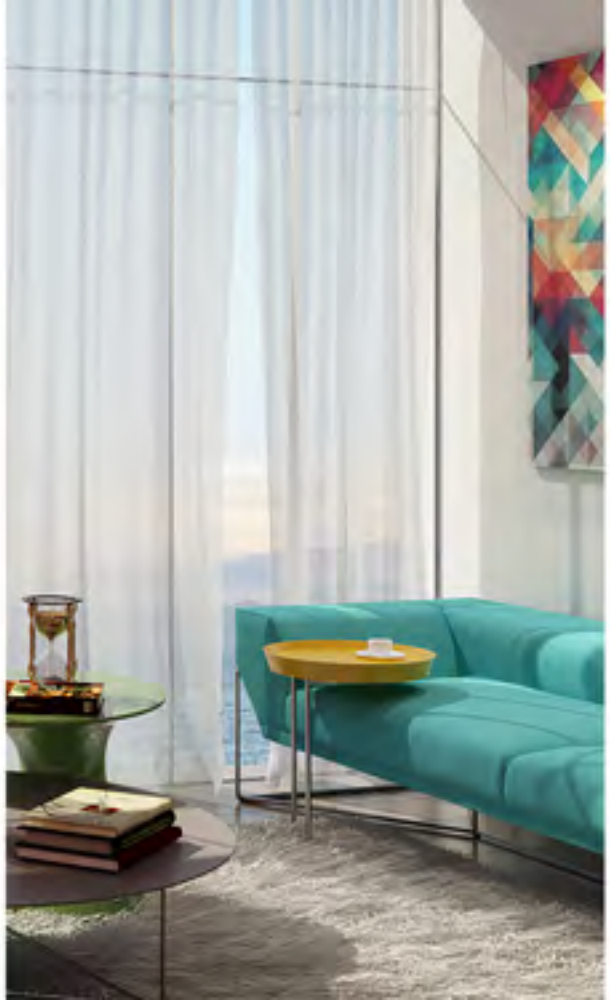

We decided here to let the advantages of an open plan and double height space govern the design. In other words, the process became purely about a very carefull selection of the right furniture and accessories to balance the vertical and horizontal spaces, perfectly harmonizing the scale of the place.

An out of the box color scheme along with some interestingly shaped furniture pieces, give this space a modernised essence of the 70's. Despite the variety of colors, shapes and patterns we were able to achieve a bright, airy and cheerful atmosphere.

MOMA

Manipulation / moma project

Striking color theme gives the design a different look

SENSEI

In this color scheme combination the light wood and the green create a very natural feel. Black accents give the design the element of sophistication it needs.

2016

Obvious here is the calculated use of "ton sur ton" of greys. The shades of grey are subtly broken up by elements in light wood. Contrasting touches of black (both matte and reflective) are used sporadically to visually balance the design. Intrigue and depth are constructed in the overlaying and juxtaposition of different textures.

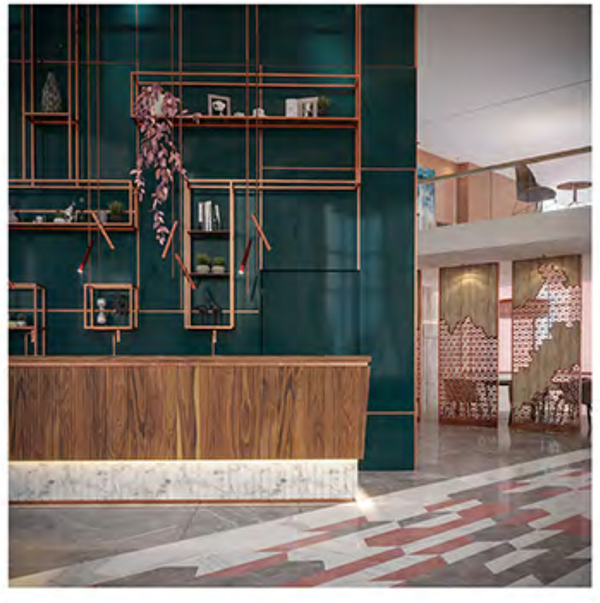

Fouka bay

THEHOUSE|**HOTEL & RESIDENCE**

Surrounded by unobscured sea, and lagoon views in every direction, The House Hotel & Residence is inviting waterfront enclaves that bring the wonders of the Mediterranean Coast straight to your door.

+ EAST
SERVICED APARTMENT

Unbound by walls but rather filled with waterfront memories, each serviced apartment offers multiple moods of interiors to choose from while enjoying an exclusive seat onto mesmerising sea views to seamlessly combine premium quality, beachfront exclusivity and contemporary elegance designed to enrich your life, and senses.

+BLUE

Blue Mood

+WHITE

White Mood

Fully-furnished, spacious, and well equipped with state-of-the art furniture, kitchens, and air conditioning systems.

The House Residence not only invites the outdoors inside, but also lies in the heart of world-class action providing you with an unrivaled standard of luxury living in par with elegant hotels. From 24/7 concierge services, an action packed private beach hub, signature dining experiences, and business centres just around the corner.

WHITE
MOOD

The space is designed to reflect luxury with a nostalgic feeling, this mixtures of different materials from rough wall to smooth and shiny marble and gold brass, in addition to black & white photographs of famous Egyptian celebrities, all bring a sense of oldies with a twist.

SWISS INN Hotel

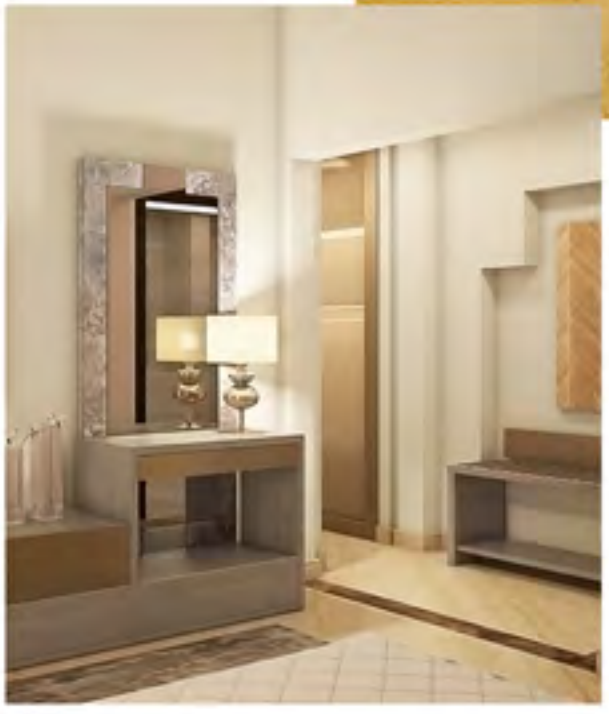

Swiss Inn Hotels & Resorts has evolved into a high regarded niche hotel managment company since the founding in 1994 by Anton Good.

With over 10 hotels and resorts existing or under construction in the core markets of Egypt and Middle East, this group is clearly positioned in the niche segment. Traditional Swiss values, such as punctuality, friendliness and high quality standards lives in the business, city hotels and holiday resorts.

Swiss Inn - Dream Land Suite

Coolness has never
been so warm

Comfort and tranquility are the major themes in our designs for Swiss Inn. Soft and carefully-selected materials were chosen to create the mood of the suites and rooms. The design provides the guests and visitors with a serene and friendly environment resulting in a unique experience.

ANAYA RESORT

CLUBHOUSE

The overall rawness and simplicity of this resort, containing natural materials and earthy tones, give a beach-like feel to the interior. Bright colours are added in areas to liven them up and create the fun, funky and fresh summer vibe.

The design of this restaurant consists of assortment of overlapping and intersecting vertical and horizontal elements.

This concept is carried down to the smallest detail, which is evident in our furniture and lighting selection.

Minimal design, light fixtures and furniture as well as the high ceiling, allow for the least amount of obstructions possible, contributing to the openess and visual continuity of the space.

The mixture of pastel colors in the furniture which are introduced into the black and white color scheme add a subtle light-hearted layer to the design.

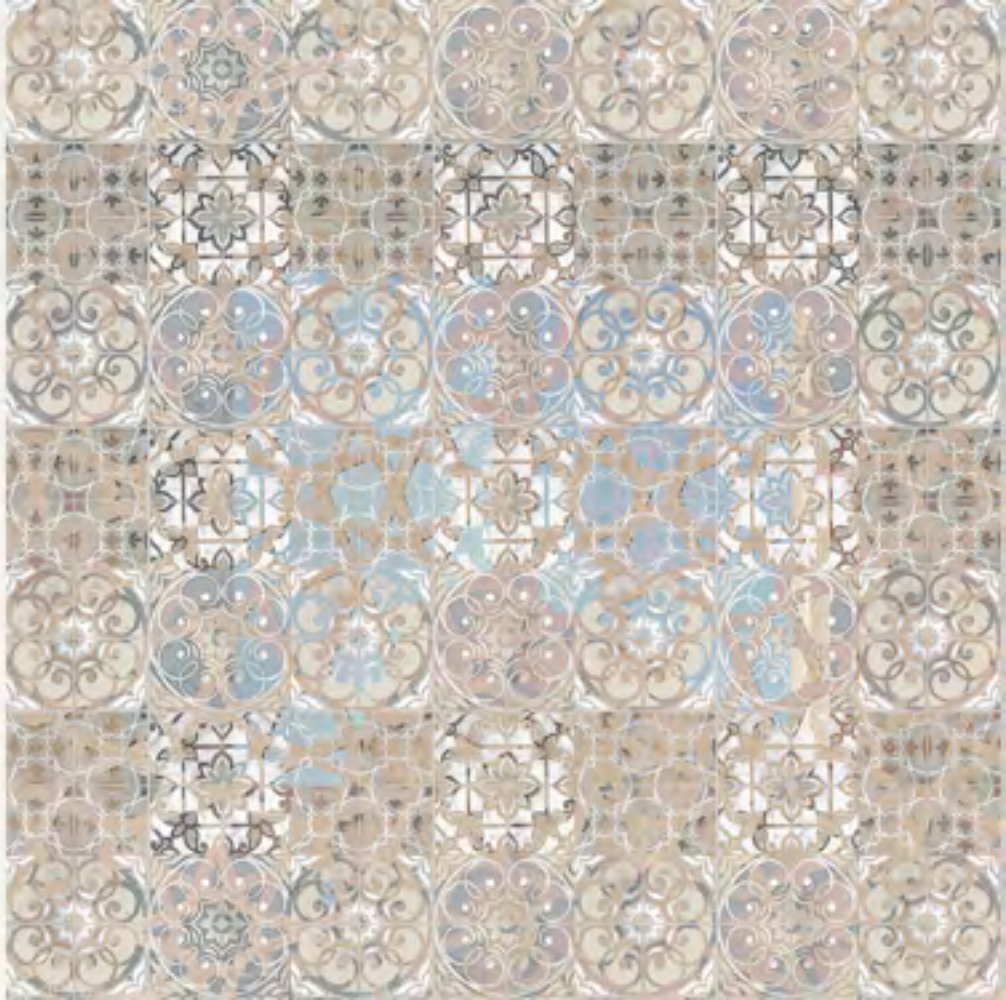

RESORT

FORT ARABESQUE

RED SEA

Inspired by the Sardinian roots of its architects, Fort Arabesque Resort & Spa combines distinctive Italian and Arabic accents, , from its imposing medieval structure to its interior touches and decor. The different shades of Egyptian cave stones from Aswan blend with antique fine wood furnishings of oriental designs.

In collaboration with MHDH, a unique Egyptian design concept was seamelessly nestled into the fort-like architecture.

We counterbalanced the heaviness in the architecture and some of the stone interior finishes in several ways. Firstly, we kept the colors very light and neutral. Second, we kept the space visually open and introduced a delicacy in the oriental patterns of the tiles and screens. This is all complimented by the simplicity of the traditional, neutral furniture selection.

a RESTAURANT

SALAD STATION

b GUEST ROOM

To create an airy and calming mood, we used a very light and neutral color scheme, of whites, beiges and creams. Depth was added to the design by taking advantage of different textures,
A subtle touch of some gold accessories adds a needed elegance to the space.

HOTEL

GOLDEN DOMES

The luxury required by the Golden Domes Hotel project was inspiring enough for us to develop a very unique design.

The aim was to create very rich and high-end spaces without comprimising the homey feel. We wanted the guest to be comfortable but at the same time get a sense of glamour. This again was achieved by our great attention to the finest details as we made sure to maintain high quality standards throughout the hotel.

The Golden Domes Hotel & Mall is a luxurious visitor attraction located in Nasr City of Cairo.

With a prestigous entrance, the development comprises a hotel, mall, and day-use building, as well as a kids' play area, green areas and water features.

In order to achieve a similar effect in lower cost rooms we had to use creative solutions to adapt the same quality and standard of design to the large clientele.

THE COVE

ROTANA RESORT & SPA

ras al-khaimah, UAE

Rotana's first property in the Emirate of Ras Al Khaimah. The Cove Rotana Resort is where the traditional charm embraces the uniqueness of the Arabian culture.
The spectacular resort is located on an idyllic water inlet on the Ras Al Khaimah beachfront overlooking the Arabian Gulf with 600 m of pristine beach.

Spread through the idyllic resort are 204 rooms and 78 one, two and three bedroom villas that are ideally designed to accommodate families or a group of friends.

With a Nubian touch in their design, the rooms and villas are well-crafted and aesthetically designed to offer comforts that you would expect of a 5-star resort.

LOBBY DESIGN

LOBBY DESIGN

LOBBY BAR

With this restaurant space the intention was to both match and highlight the impressive architecture by creating a dramatic interior. We achieved this, firstly, by using a variety of rich and textured material finishes for the walls, floors and ceiling. Secondly, we gave great attention to the lighting design in this space. it is very prominent, both functionally and aesthetically.

In contrast to the busy and dramatic restaurant, the bedroom design is much more toned down, with fewer materials and a more simple lighting scheme.

The overall beige tone creates a calming atmosphere, leaving the architecture, ceiling color and dark wood accents to give the space its unique character.

“Visually powerful, intellectually elegant”

-MHDH-
Mona Hussein Design House
Polygon /
Sodic West
Area: 120 m2

Mona Hussein Design House has a new office in Sodic West. An elegant and modern design lends a unique work-space environment for our team.

As a design firm it was only natural to design the new office for ourselves. Being a design by us, for us, has a significant effect on how we work, feel and deal in the space. The overall sense is one of encouragement and pride.

Recognizing the need is the primary condition for design.

"Details create the big picture"

Sanford I. Weill

"The space within
becomes
the reality of the
building"

Frank Lloyd Wright

The cool industrial feel is toned down by the elements of design introduced to increase the warmth of the place.

The high quality, precise design, in addition to these elements of warmth and character is a clear reflection of who we are as a professional design team with high working standards and as creative individuals.

-MHDH-

New Cairo

SUEZ CEMENT

Head Office

Area: 220 m2

Interior inspired from cement color. We used materials like burnt granites & bardiglio to reflect the character of the factory that this office represents. We added warmth with contrasting colors and soft texture of the wood.

PSP

Power System Projects

Power System Projects - PSP - is a leading Engineering, Procurement & Construction Company established in 2003 .

PSP is a professional organization which has proved its in-depth technical capabilities and the supreme quality of its executed projects thanks to its dedicated experts and leaders, by delivering reliable solutions and services based on a commitment to top value, cost efficiency & innovation.

Area: 995 m2

Construction Company

Our design concept for their New Cairo Office was inspired by the linear electrical cables and power lines. We achieved this aesthetic with strong modern, linear gestures. The overall result is extremely high-tec modern and efficient, reflecting the company's core identity.

The modern, continuous, linear lighting units floating in an industrial ceiling siginficantly contribute to our theme of creating an electrical grid of cables.

The reception area was designed with a dark black theme using a reflective black floor and reception desk.
The media wall balances out the grey, black and white colour scheme and personalises the space as it displays the company's great endeavours and achievements.

SUEZ CEMENT

Smart Village

Area: 210 m2

Interior inspired from the cement color and texture. We contrasted the grey tones with white marble and paint colors along with black accents. Warmth was added with a smooth and elegant walnut wood.

One of the challenges of this projecting was creating a design which accomodated all the client's existing furniture.

PRIVATE OFFICE

Mohammed Hefzy

Area: 165 m2

FURNITURE LAYOUT

The surface is raw and sleek for a contemporary look, and the wooden floor tones warm up the space nicely.

Although it looks rough, concrete wall add an elegant and classy touch that embrace its industrial core,
this interesting combination between concrete wall & wooden floor bring out warm & inviting space.

ONSI SAWIRIS OFFICE

sales center

SODIC

Heliopolis

One of our high-lighted projects in 2014 is Sodic Office and Sales Center located in Heliopolis.

SODIC is one of the country's leading real estate development companies. Headquartered in Cairo and listed on the Egyptian stock exchange, SODIC brings to the market award-winning large scale developments, meeting Egypt's ever growing need for high quality housing, commercial and retail spaces.

It has emerged as one of the country's most credible real estate developers and is currently at the forefront of the Egyptian real estate market today.

The layout & display creates the mood and feel of an exhibition space

We aimed to design an iconic and prestigous space that offers the client a work-place in combination with a mid area to exhibit their implemented projects, through a variety of different displays.

Our concept is based on large areas and spaces, which are comfortable, and professionally organised in a functional layout.

The design is bold making use of a repetitive sequence of regular shapes. This creates an impactful interior and results in a powerful effect which is fitting with the prestigiousness of a company like SODIC and representative of its authority, strong position and large scale expansion and growth.

The exhibition space transitions and seamlessly merges into the workspace of offices

With slight alterations there is a unified design language that flows through all the spaces and extends to the outdoor landscape

The office space is transparent and bright. This along with the greenery used inside allows for a comfortable, efficient and relaxed work environment.

" Comfortable, efficient & convenient design "

SODIC

Comfortable and professionaly organ-lised to suit the area

Mangroovy
RESIDENCE
EL GOUNA

Area: 575 m2

Mangroovy
RESIDENCE
EL GOUNA

Mangroovy is one of the leading companies in residential and real estate services based in El-Gouna.

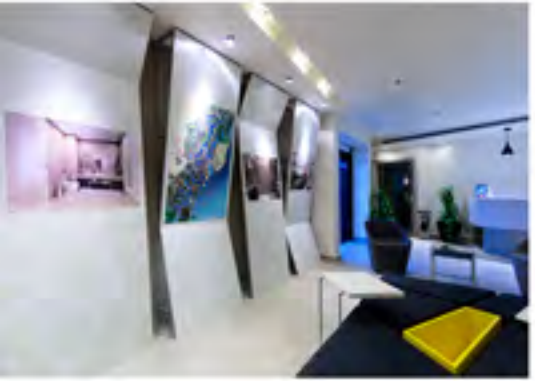

As developers they appreciate a life with less clutter, less stress and more satisfaction. They believe in the "less is more" philosophy.

They also happen to possess great understanding for design and aesthetics, and an uncanny ability to pinpoint what works and what doesn't.

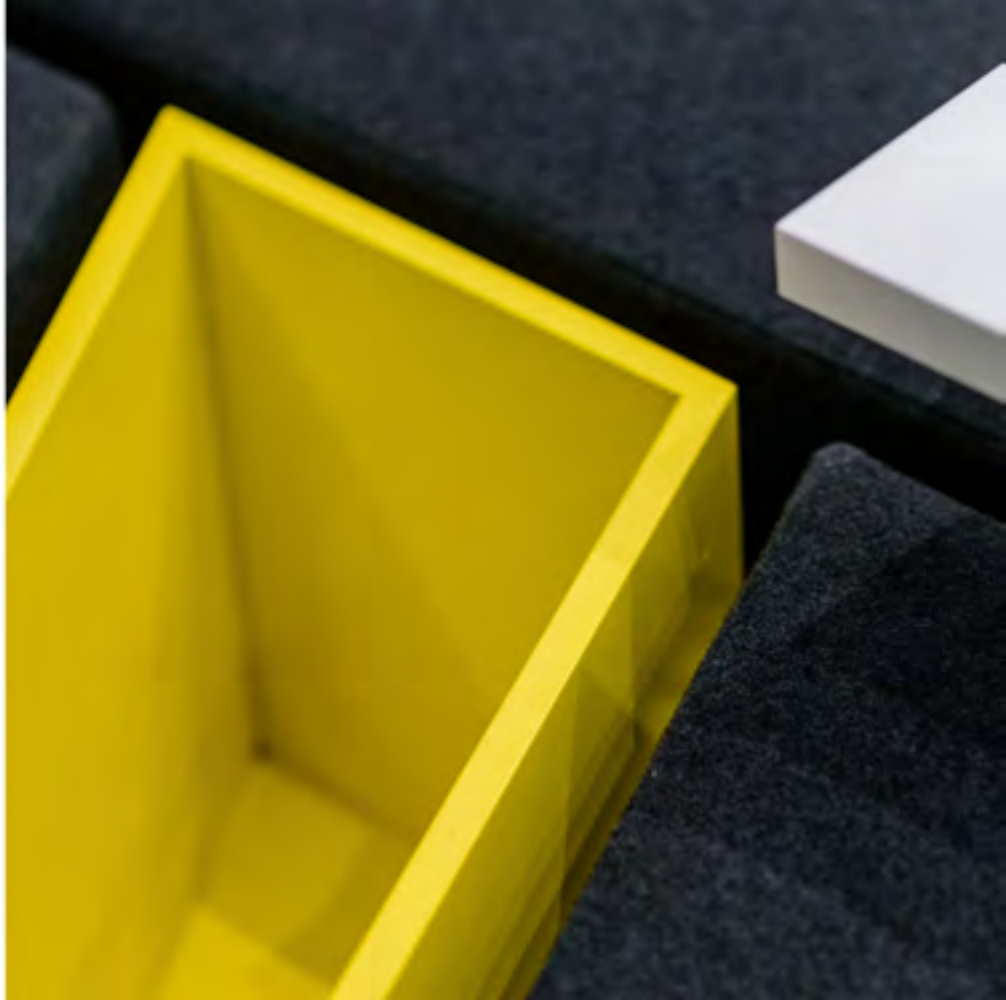

We based our design on their philosophies by creating an environment that is highly functional but at the same time exudes a calm, stress-free positive energy.

White, glass and reflective surfaces are key elements in this design, where a light, open, elegant, transparent and tranquil environment was the aim. The lighting design is also crucial here, creating a soft ambient light, adding a significant layer and depth to the design, and accentuating certain features.

Soft blue lighting with white walls create a calming and tranquil mood, despite the vibrant colours used in the space.

TATWEER MISR

Sales Center - New Cairo

Established in 2014, Tatweer Misr is an Egyptian shareholding real estate company, that capitalize on a wealth of industrial and real estate experience brought to the table by its shareholders.

A strong bond has been formed between Tatweer and MHDH, collaborating on more than just interior work, such as large scale land art symposiums.

A'DESIGN AWARD
WINNER: BRONZE

RESTAURANT

We added amount of sandy colored, raw textured wood in the furniture with various selection.

Concept of mirrored walls to allow views to the sea, and ceiling ideas were inspired by water and light.

In keeping with the flowy theme , the entrance is a major attractive center in the restaurant with its sandy wooden texture look that integrate with the whole design concept.

GOLF Dream Land
CAFE & RESTAURANT

Mona Hussein Design House has created this Golf Cafe and Restaurant in a way that lets the golfers feel comfortable but at the same time not isolated from the whole mood around. That was by using the nature theme around represented in woods, greenery, white as well as the open wide spaces so everyone can still be connected with the marvellous view out there.

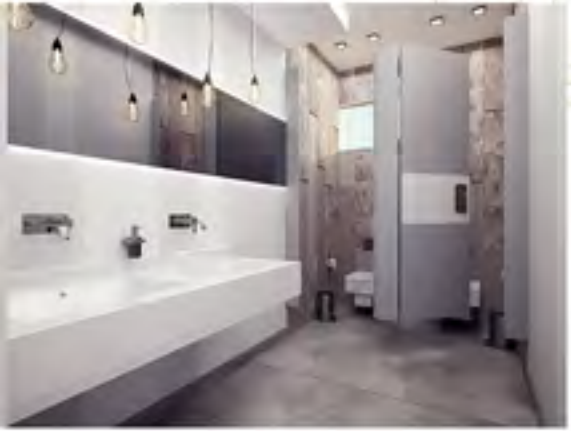

Golf

" The Careful balance of the design is the motion "

Andrew Wyeth

Topaz... A jewel created from nature... A precious stone that is a symbol of power. Topaz is a protector to its wearer; it is the stone of the kings and monarchs, the stone of wisdom and knowledge. Its beautiful hue is a reflection of the sun's striking brightness, as the ancient Egyptians believed.

Showroom

MET

MET is a company that provides you with several ranges of high quality, cost effective, and sustainable LED lighting.

MET show room was a special case that required a functional solution for their lighting display. In order to acheive a certain level of viewing for the pieces and lighting products a rythm was created .

One of the challenges was achieving the correct level of ambient lighting, which is difficult as the place is full of lights.

Shelves can hold one or two pieces in a frame, where each unit can be viewed separately within a window, to maintain its particular characteristics.

Lighting units form the space in harmony

MET's vision is to be the premier quality provider of green as they consistently supply the commercial and institutional market .

Their mission is to continuously provide effective and sustainable products, as well as services to the needs of their valued customers.

" Without
light,
there is
no space "
.0

BESTSELLER

The shelving system is uniquely designed to accomodate the variety of different products.

The shelves are also used as a diffuser for the light of the units placed inside, allowing each one to beautifully preserve its mood and significant features.

The neutral colour scheme, simple decor, furniture and signage keeps the focus on the lighting pieces and prevents the space from feeling too busy or overwhelming.

.09

ALL WASHER

CRYSTAL
ASFOUR

Asfour Crystal is a globally recognized name that is synonymitous with unique quality and decades of dedication.

Once voiced, the words Asfour Crystals bring to mind images of precision cuts, unmatched clarity and luminous, colourful sparkle.

Asfour Crystals has chooseh Mona Hussein to accomplish its new showroom design with special dedication to innovative approaches as well as quality maintaining and creativity.

The company is now the largest manufacturer and exporter of full-cut lead crystals across the four corners of the globe.

Golden line, details and finishes with pure quality.

We intended to give the place a sense of hospitality by creating a welcoming environment and homey feel.

Adding some accessories completely transformed the mood and atmosphere of the overall space. Choosing to place a dining table in our design helped us accomplish this relatable home-like feel.

We wanted to create an elegant, luxurious and rich home. The color version we had for the design dictated the choices we made for every little detail and accessory.

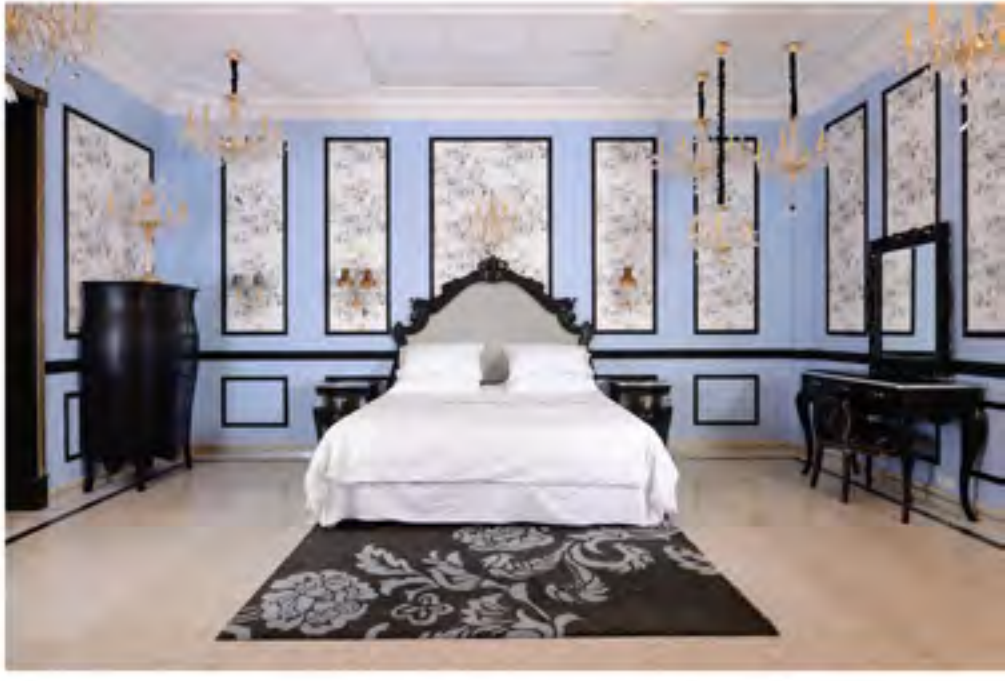

2011

Although the Black & White scheme was used throughout the project, here a new color was introduced to give this area a character of its own. The black tones, playing the role of contrast, are easy against the light blue color, and are balanced by the whites and beiges, resulting in a pleasant combination.

In contrast to the light blue bedroom the mood in this space is much more dramatic and mimics a classic, luxurious grand reception or lobby.

Black and Gold along with rich furniture selections do the trick, with whites and beiges used for balance where needed.

CRYSTAL
ASFOUR

PARADOR

Showroom

Living spaces are an expression of our individual attitude to life and of our own individual demands – means having an awareness for quality.

At Parador, we unite this awareness for quality with a sense for the classic and a flair for the time in which we live.

The result is a wide spectrum of products, whose confident style down to the last detail is equally convincing as the natural impression of their material.

Active reforestation and innovative product chains characterise the production at Parador.

Parador also supports the Plant-for-the-Planet initiative, which sends a signal for climate justice worldwide through tree-planting actions.

2016

Our design is very adaptive to the ecological and environmental products displayed by Parador, we aimed to achieve the highest level of sustainability and productive space, where light materials, wall cladding and ceiling were treated with minimal consumption solutions.

The space is functionally successful, it gives the visitors organised displays for tour. We gave the client a blank canvas where the products are the main feature in the place.

This design consists of the idea of being light, open, transparent and bright with accents of black for high contrast. The simple use of white, glass and raw light wood texture in the design allows the products to be the main feature in the design. The natural wood colors and green poster add a breath of nature and give a more light and airy mood.

MAHALLY

Mahally with Mona Hussein

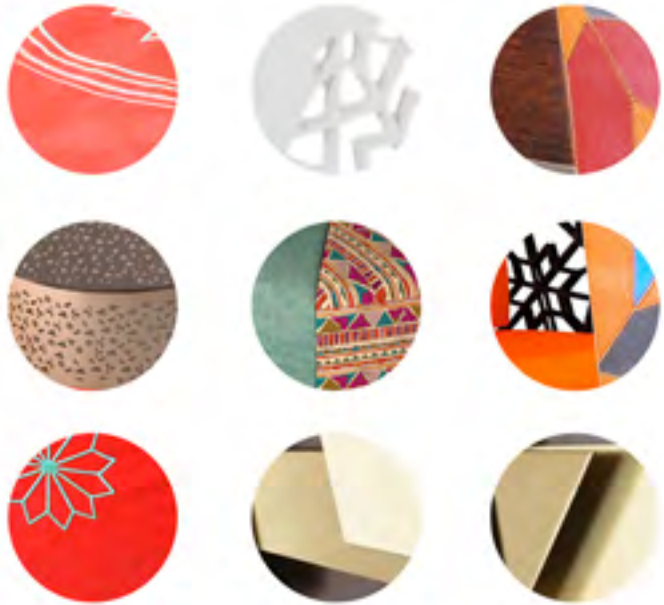

MAHALLY is a homegrown Egyptian furniture store with its success rooted in the artful historic conceptions of sweet Egyptian cultures coalesced with contemporary design.

The name was inspired from our:

"Local pride" in products that are designed and manufactured in Egypt.

Pride of being "My Store" for each and every designer who displays their creative products in MAHALLY.

The store exhibits new and innovative designs of home accessories, lighting fixtures, paintings, photography and furniture. The products in the store are all locally made as well as inspired by our culture and by our nature.

Buy/by Egyptian design

manufactured locally

we welcome Egyptian designers to use **MAHALLY** as a platform for showcasing their talents because the best outcomes are through collaboration. The design twist behind **MAHALLY** is that it harnesses the background of our heritage and culture while translating it into contemporary furniture design pieces

full package flexibility

quality furniture

Function and practicality is beauty.

This is the religion behind our design theorization and formation. At no expense will we sacrifice one for the other and that is what gives our products the rare MAHALLY character.

MAHALLY empowers new designers to explore their potential and further their professional careers. Designers are able to design and showcase their products through our design hub. We act as the link between them and the best factories and workshops in Egypt so that their designs are transformed into marketable products. In the course of this process local materials and production processes are used to the maximum.

FOUKA BAY NORTHCOAST

Situated 211 Km West of Alexandria and only 75 Km away from Marsa Matrouh, Fouka Bay boasts an idyllic private setting that is only a minute away from the newly constructed Fouka highway. Stretching across Egypt's gleaming Mediterranean coastline, the vibrant destination offers a unique abundance of relaxing experiences and exciting water-sport activities.

FOUKA

The environment was respected and in fact utilized to its optimum potential to build a strong base, a community with 87% green open spaces. Climate change was studied and incorporated in all architectural plans. Comfort, mental and physical health, happiness and contentment, and all basic to luxurious needs were the base consideration of every component. Most importantly, self-sustainability and the future, defined the creation of this destination.

NEWGIZA

The Pharaohs were famous for carving Jasper in sacred scarabs which symbolized eternal life and were commonly used as protective charms. Jasper remained present in all Egyptian dynasties and played a central role in the protection of people. Despite being readily available on the same ground that now serves as NEWGIZA's terrain, Jasper remained very valued and respected for its powers as a crystal.

SODIC

FIRST ART SYMPOSIUM

METAL SCULPTURE

2011

SODIC's first international symposium took place from May 6th to June 6th 2011.

The theme of the symposium reflected the critical transformation of the Egyptian society immediately after the historic moment of Egypt's revolution. The magnitude of the transformation and its effect on the individual versus the collective Egyptian story drew 20 emerging and renowned artists to create metal figure sculptures from Egypt and the international art community alike.

SODIC

SECOND ART SYMPOSIUM

FUNCTIONAL ART

2012

After the the successs and the massive achievement through the first Symposium Mona Hussein Design House MHDH and SODIC launched their Second Symposium event in October 2012, only that time it was presented in a progressively innovative manner while maintaining the original initiative of the previous symposium.

The theme of the 2nd symposium was Functional Art Pieces.

The mainspring behind the second Symposium is functional art which is manifest in creating sculptures in the the form of outdoor seating units from original Egyptian marble. These seating units add to the aesthetic value of SODIC properties and inspire contemplation and the appreciation of beauty

Come join us any day between
15 OCTOBER - 10 NOVEMBER 2012
to capture the symposium in the making
Daily from 10 am - 5 pm

SODIC

A list of talented artists were selected to participate in SODIC 2nd Symposium, they have worked on new innovative designs throughout the period of the artistic event.

IL MONTE GALALA
SOKHNA

FIRST ART SYMPOSIUM

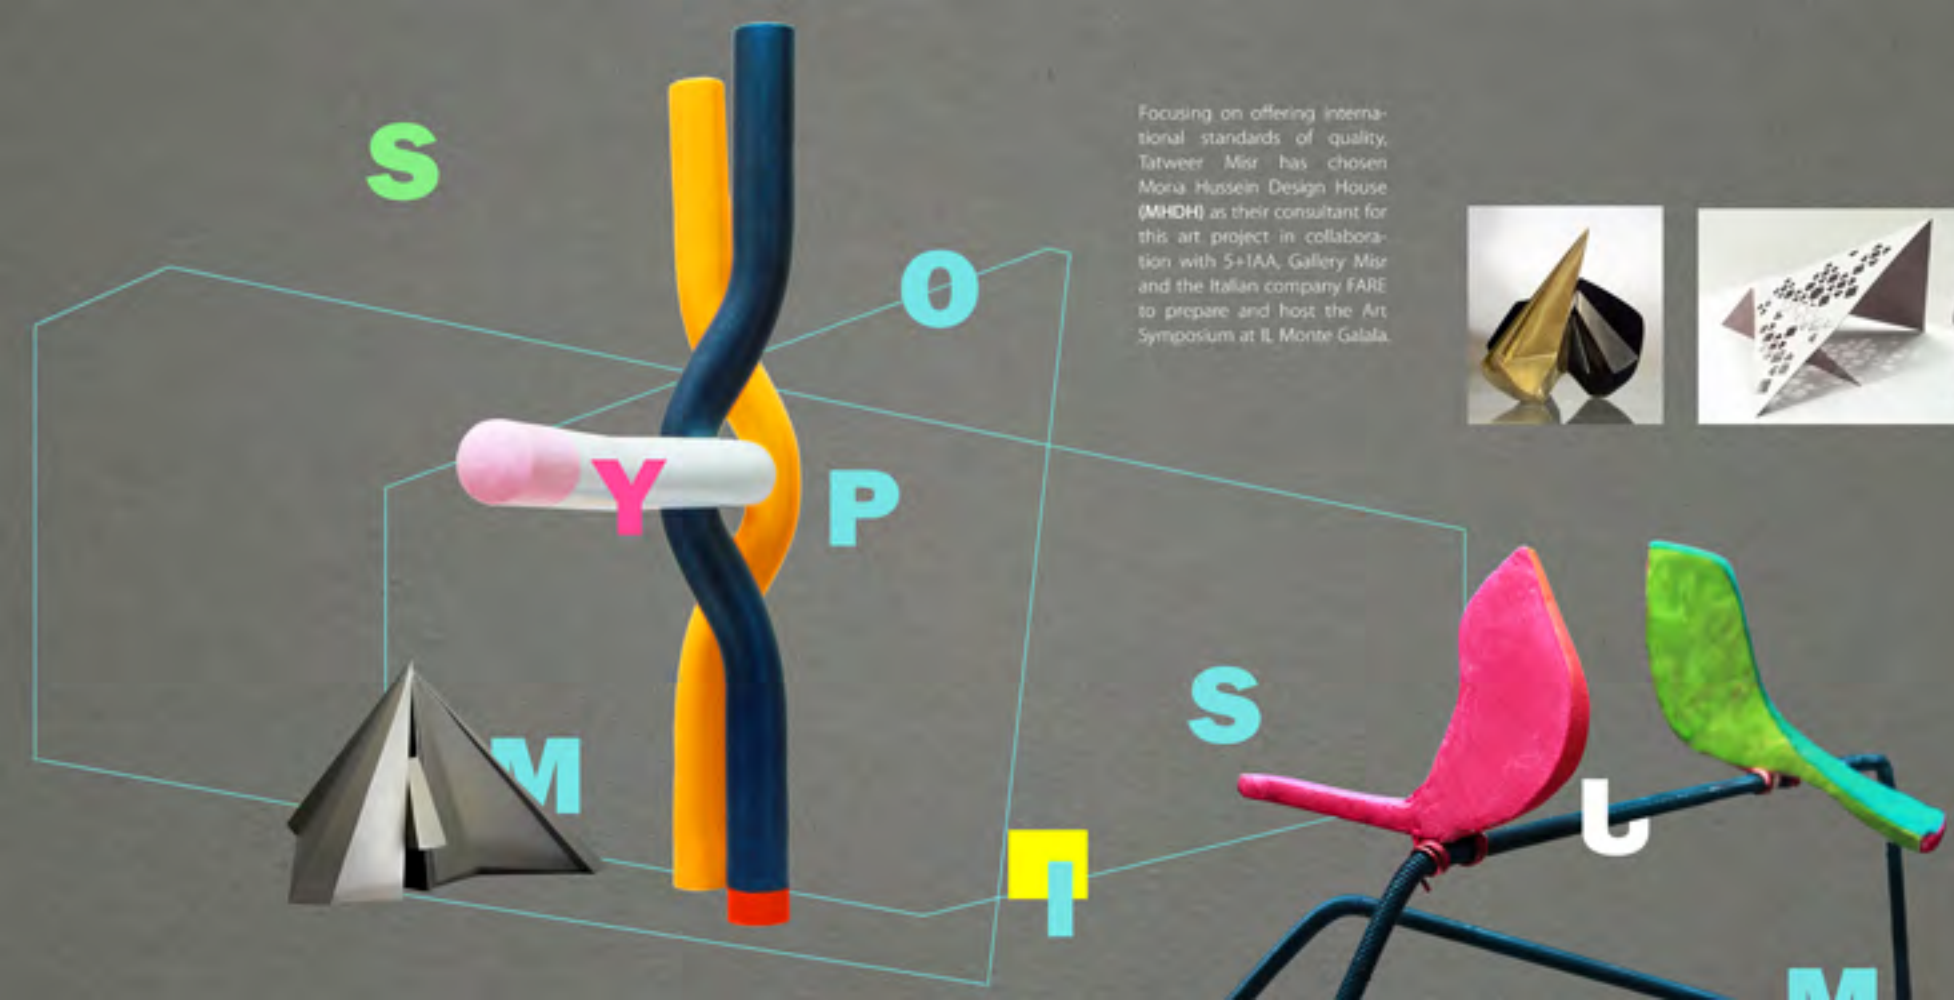

REFLECTIVE POP OF COLOR

2016

Tatweer Misr, the Egyptian real estate developer, announced the launch of its first art symposiums in IL Monte Galala-Sokhna, its flagship project in the Egyptian market. This symposium is one of a series of consecutive symposiums that will be held twice a year over the coming 5 years, each with a different unique theme and medium for artists to work with. The 1st symposium's theme is " Reflective Pop of Color" aiming to create harmony between the unprecedented nature of the surroundings and the stunning artwork of prominent artists promoting IL Monte Galala – Sokhna as the new art tourism destination.

Focusing on offering international standards of quality, Tatweer Misr has chosen Mona Hussein Design House **(MHDH)** as their consultant for this art project in collaboration with 5+1AA, Gallery Misr and the Italian company FARE to prepare and host the Art Symposium at IL Monte Galala.

S

(MHDH) has created over 20 Land Art themes to be used as guidelines, inspirations and subjects for consecutive symposiums. We have also designed storerooms for artists' tools, as well as "the Art Quarters", an open air creative station dedicated to artists. Emphasizing that art is a focal theme for IL Monte Galala, the natural materials and glass used in artworks harmonizes with the surrounding environment in this area" added the famous Egyptian designer Moina Hussein.

Ripple applique is a lighting unit that can be designed using either brass, copper or metal. These materials are then hammered and cut into rings which are then placed above one another to recreate the pattern of a water ripple. The layering structure is designed to disperse light in an artistic and visually appealing way.

The project is inspired by raindrops when steadily observed and how they propagate and contrive a sequence of circular forms from the moment they fall from the sky down to when they marry with water. This pluvial process is the substructure of the design concept formation for the ripple applique.
When creating a design, the challenge is divided into parts. Firstly, it must serve its main purpose, so in this case the lighting effect was the main concern. Secondly, its function is important which is its flexibility in any space it is placed. Thirdly, the quality of the production must be flawless in its context.

Mirsa Hussein proudly has won the **Golden A' Design Award** in Lighting Products and Lighting Projects Design Category 2013-2014 period with design #29520

A'DESIGN AWARD
WINNER 2013
G O L D

The Golden A' Design Award is a prestigious award given to top 3% percentile designs that has achieved an exemplary level of excellence in design.

The designs are judged by a panel of three different Jury which is composed of 5 Academic, 5 Professional and 5 Focus Group Members for each different competition.

The designs are evaluated with score normalization to remove any biases and are voted on aspects such as functionality, ergonomics, engineering, presentation, innovation, usability, fun details, technology and any other specific point that could be considered, each of these points are further weighted for different jury groups.

Mona Hussein proudly has won the **Golden A' Design Award** in Furniture, Decorative Items and Homeware Design Category in 2012-2013 period with design #26520

+ 15 April 2013, Milan / Italy

MAHALLY AWARD

The MAHALLY AWARD by **MAHALLY** with Mona Hussein is a freestyle product design competition designated for professional and young designers to create together an authentic yet elegant collection inspired from our charming Balady culture.

The competition is sponsored by The WATERWAY and supported by the Egyptian Furniture Export Council (EFEC).
MAHALLY Design Award is a certificate of excellence for designers. It is an important milestone in their career. **MAHALLY** will showcase the designers' talents to both producers and the buying market.

> Round ONE WINNERS 2014

Hossam and Mohanad are Balady Competition winners. Their message behind Ottoman design was to revive the Siwan identity in our contemporary design.

Mahmoud Gamal is a Balady Competition winner. Egyptian folk is the inspiration behind his design as it's filled with different patterns, vibrant colors, illustrations and genius lifestyle and function.

NEW YEAR
CHRISMAS WORKSHOP
2019

Mona Hussein Design House was keen to celebrate the new year with Banati Foundation, we spent time with children and shared happy moments and activities.

we created chrismas decorative shapes with cardboards for children to color and play.

banati
Banat El Ghad

COLLAGE WORKSHOP 2017

During this years visit, **Mona Hussein Design House** held a collage session at the Banati foundation using a sketch book and colors to draw what they love & envision their dream.

This workshop aimed to teach them how to harmoniously use color as an expression tool.

Mona Hussein makes it a point for the design team to create a workshop that will teach these children something new every time.

The goal for this is not just adopting 15 children but spending quality time and teaching them something that they will always remember and enhance their creativity.

banati
Banat El Ghad

We always mix education with

FUN

2013
Chair Painting Workshop

Mona Hussein Design House is privileged to be part of Banati - (Banat El Ghad) - foundation and the adoption of 15 children trying to widen their ability to have bigger dreams and tools to give them hope for a better future .
Banati's main objective is to eliminate street kids in Cairo's urban areas .
Giving all Banati children (ages : 4 months to 14 years) a better chance in life .

MHDH annually arranges workshops with Banati where our designers prepare a design program for the kids to interact with each other on a social level as well as an educational level that could widen their potential.

2012
Palm Wood Workshop

The Design Team at the Banati foundation **Mona Hussein Design House** held a palm wood workshop at the Banati foundation.

Using palm wood and paint, this workshop was all about teaching these girls about the palm trees and all the different uses for them.

Yearly Mona Hussein makes it a point for the design team to create a workshop that will teach these children something new. Not only adopting 15 children but spending quality and teaching them something new time with these kids is what the design house was aiming to do.

MHIDA

MONA HUSSEIN INTERIOR DESIGN ACADEMY

Mona Hussein Interior Design Academy - **MHIDA** is institutionalized to inform and educate on anything that encompasses interior design.

Objective:
is to share 25 years' experience in the Egyptian market for the knowledge and consolidation through our future vision.
The benefit of this course is that there are no architecture or interior qualifications needed to apply but rather a plus, which means that this is not a technical course.
One of the most important things is to introduce materials to our students and recommend suppliers, accordingly a huge no of Egyptian lead companies is participating in our academy each with their own knowledge and experiences.

Audience:
Prospective students, designers and professionals.

"Success is a state of mind. If you want to success, start thinking of yourself as a success."
